Too Much Salt Is **BAD FOR YOU!**

Salt is important for your body. It helps your body stay healthy. Salt also helps your brain work well. But eating too much salt is bad for your health. It can cause many diseases. You need only about 4 grams of salt a day. Most fast foods have too much salt in it. Try not to eat them too often. Instead, ask your mom or dad to cook less salty home-made food for you.

Do you like walking? Walking is a great form of exercise. It can also make you feel better. Walking is a great way to lose weight and build muscles, too.

Walking is easy. Walk with your family for about 30 minutes, 3 days a week. Walking with your dog is a good idea, too. Your dog can protect you from strangers. Spring is a perfect season for walking. The weather is nice and warm. You can also see many beautiful flowers while walking! Go out for a walk and stay healthy, everyone!

Walk!

Walking Is Great!

To tell you the truth, I hated walking when I was a child. But one spring, I began to like walking when my family went on a picnic. We walked slowly along a path through a forest. The sun was shining through the leaves. And beautiful flowers were smiling at me. I also met cute squirrels and pretty birds. Walking was a lot of fun! Now, I often go for a walk after dinner. When I'm stressed, walking makes me feel much better. Why don't you walk for your body and mind, too?
