Lesson 10 Small Ideas Fly High

Let's Read

p. 191

There is an interesting story about René Descartes, who was a great thinker in France.

One day Descartes got sick, so he went to bed early. But he could not fall asleep. He was staring at the blank, white ceiling for a while. Just then, he noticed a fly on the ceiling. It flew off and landed near one corner. Then the fly flew off again and landed in another corner. Then it landed on the ceiling at a spot above his toes. Next, it stopped at a spot right over his head. It landed at different spots all over the ceiling.

Do you Know?

르네 데카르트(René Descartes)는 프랑스 출신의 철학자이자 수학자이며, 동시에 물리학자이다. ‘근대 철학의 아버지’, ‘해석 기하학의 창시자’로 불린다. 합리론의 대표 주자로, ‘나는 생각한다, 고로 나는 존재한다.(I think, therefore I am)’라는 유명한 말을 남겼다.

Quiz – What did Descartes notice on the ceiling?

Words – thinker stare ceiling spot

p. 192

Descartes wondered if the fly ever landed on the same spot twice. “I need to record whether the fly lands in the same place,” he thought. “But how can I do that?” he thought and thought.

Suddenly he had an excellent idea, which was to draw lines on the ceiling. Descartes took a piece of charcoal from the fire. Then he climbed up on a chair and first drew lines on the ceiling from left to right. Next he drew lines from top to bottom. Then he numbered the lines one by one. After that, he got back into bed.

Quiz – What did Descartes draw on the ceiling?

Words – record charcoal bottom

p. 193

Descartes watched the fly on the ceiling. It landed on one place. He checked the spot. It was where the two lines met: the second one from the left and the fifth one from the bottom. Quiz – What did Descartes check when the fly landed?

Words – write down 기록하다 each time 매번

p. 194

Quiz – What do we use to express the location of a country or a city?

Words – Descartes' coordinate system 데카르트 좌표계 express location

Special Lesson It's Magic!

Let's Read

p. 206

Welcome to my magic show!

You believe only what you can see.

But you're not going to believe your eyes when you watch my magic show.

p. 207

As you see, there're two boxes. One is inside the other.

This is the outer box. Do you see that it is black inside?

And it's empty.

Now, I'm going to put the outer box back over the inner box.

p. 208

And I'll show you the inner box.

It's empty, too.

Watch what happens when I say the magic words, abracadabra!

Tada! Here is a rabbit.

Now do you still believe only what you can see?

p. 209

THIS IS THE KEY

There is a secret black box inside the inner box! The outside of the secret box must be black. The people in the magic show believe that there is only the outer box when you pull out the inner box. That's because the inside of the outer box and the outside of the secret box are all black.

Make sure that you put your boxes on a high table so that the people can't look inside the boxes.

Instead of a rabbit, you can put any item you like inside the secret box. Why don't you give it to your friend as a surprise gift?
