## Let's Help the People in Need!

*There are many people in the world. Everyone looks different. Everyone has different thoughts. Everyone has different personalities. But we cannot live alone. We need each other's help. It is especially important to help people who need it more than others.*

Sometimes sad things happen in the world. For example, many people in Haiti are dying of hunger. They lost their homes and families because of the strong earthquake. Now they have nothing to eat. They don't have homes to sleep in, either. They need our help. Also, there are many other poor and sick people in the world. They also need our help. Helping others is not difficult. Just share what you have with them. The Earth is our home and we are all one family!

Staff reporter Liz Ahn

## Helping Others Makes You Happy!

Everyone likes kind people. Kind people like to help other people. They like to make other people smile, too. Becoming a kind person is easy. You don't need to have a lot of money to be a kind person. Knowledge is not important to be a kind person, either. You can be a kind person right now with what you have! Look around and if you see someone who needs help, give a helping hand. It will make you feel very happy. And you know what? You will also get help when you need it in return!
